Azure Migration Assessment

Modernize legacy IT infrastructure and migrate on-premise infrastructure to Microsoft Azure.

Move to Microsoft Azure with ease.
Cloud transformation assessment aimed at enterprises seeking to modernise legacy IT infrastructure and migrate on-premise infrastructure to the cloud

Review infrastructure for cloud suitability

Migration feasibility and risk analysis

Return on Investment and cost analysis

Project Plan for deployment & migration

Architectural design & deployment layout

Outline major milestones

Develop cloud adoption roadmap

Our methodology quickly assesses your current infrastructure and helps reduce Azure spend by up to 63.7%. Once the assessment is complete, deployment can take from little as two hours to two days with applications ready to be in the cloud within days.

We start with your people first, your processes and then your technology. Every business wants to be more productive and profitable, and it starts with people.

Our goal is to make sure your employees have reliable IT equipment so they can get on with their jobs.

We provide information technology services to small, medium and enterprise customers in healthcare, manufacturing, professional services, education, entertainment and Government sectors

Start your cloud journey today
