

Litera Draft Base

Draft Base is the essential comparison and redlining suite for law firms and IT leaders who want to raise the bar, streamline workflows, reduce risk, and drive measurable value by embedding agentic AI into everyday legal work.

Now, with **Lito**—the only AI agent built on 30+ years of legal experience—**Draft Base** delivers intent-driven automation and actionable insights directly inside Outlook, the web, and soon, Word.

Why Draft Base?

Draft Base with Lito is a strategic upgrade from traditional comparison tools. It builds on the trusted Litera Compare engine—relied on by 75% of the legal market—while introducing agentic AI for smarter, faster, and more consistent redline, drafting, and review flows. Lawyers can work in familiar environments, adopting agentic workflows at their own pace, and unlock new levels of accuracy and efficiency in redlining, drafting, and review.

Simple, Futureproof Tech Stack

Consolidate and modernize comparison, drafting, and review tools into one secure, scalable suite, reducing vendor sprawl and IT overhead.

Unified, Seamless Workflows

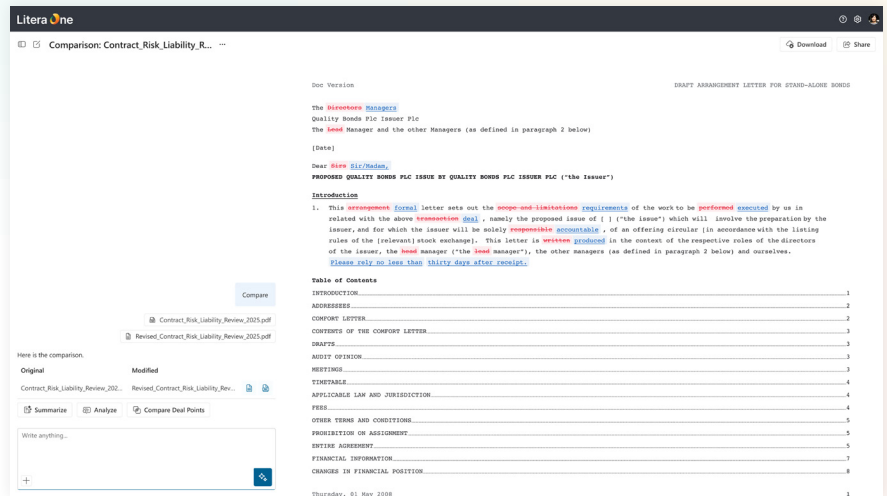

Orchestrate every comparison and review task in one intuitive Microsoft 365 interface, eliminating context-switching and driving adoption.

Trusted, Embedded AI

Elevate quality and boost ROI with Lito, designed to act on legal intent, streamline workflows, and turn insights into action.

“Draft Base with Lito brings agentic redline and review workflows to the tools lawyers already use. The built-in AI features add value without adding complexity. It’s a clear step forward for legal teams.” — IT Director
