

LITERA DRAFT PRO

End-to-End Agentic Drafting and Review for Legal Professionals

Draft Pro is a legal drafting suite for law firms and IT leaders who want to raise the bar, streamline their tech stack, protect data, and drive firmwide value by automating core drafting workflows in the Litera One unified, cloud interface.

Now, with **Lito**—the only AI agent built on 30+ years of legal experience—**Draft Pro** delivers intent-driven automation and actionable insights directly inside Outlook, the web, and soon, Word.

Why Draft Pro?

For Litera customers, Draft Pro is a level up from Litera Check, Contract Companion, and DocXtools Companion. It builds on familiar tools while incorporating both GenAI and Agentic AI for optimal redline flows including risk mitigation, contextual review, and a modern cloud-native experience. Draft Pro supports both on-prem and cloud experiences, so you can transition at your own pace and start seeing value faster.

Simple, Futureproof Tech Stack

Consolidate and modernize trusted drafting tools into one secure, scalable suite, reducing vendor sprawl and IT overhead.

Unified, Seamless Workflows

Orchestrate every legal task in one intuitive Microsoft 365 interface, eliminating context-switching and driving adoption.

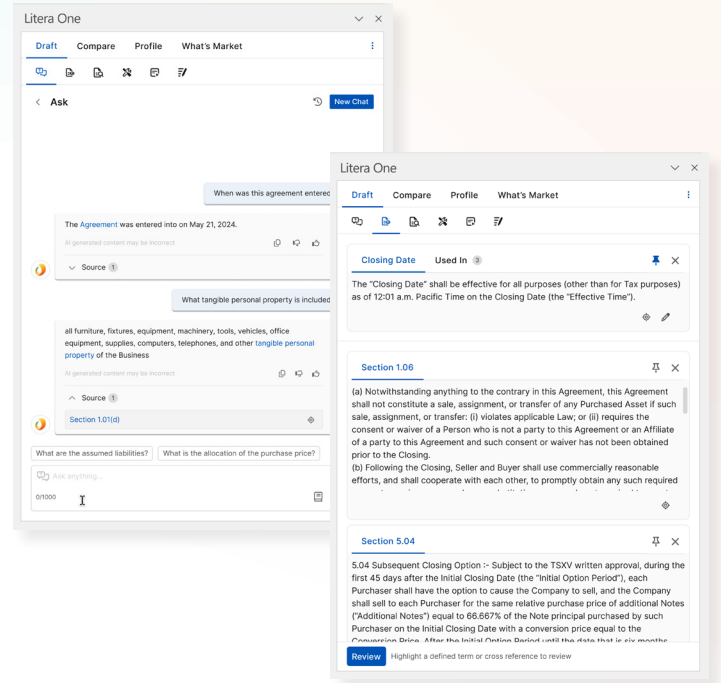

Trusted, Embedded AI

Elevate quality and boost ROI with Lito, designed to act on intent, streamline workflows, and turn insights into action.

“Draft Pro in Litera One consolidates multiple proven tools into a single interface that is easy to manage, fast to deploy, and light on system resources. The built-in AI features add value without adding complexity. It represents a clear step forward in Litera’s product direction.” — IT Director
