We are your cloud experts. Partnering with MDS/LiveRoute will realize your cloud vision

About MDS/LiveRoute:

We are a focused, diverse team of cloud experts designing and delivering the next generation of cloud solutions. We are committed to delivering outcomes not just software, licenses, and services.

What we offer

- **Execution Model:** A clearly documented execution model with defined success criteria.

- **GHAS Integration:** A comprehensive plan for customers, integrating GitHub Advanced Security.

- **Documented Processes:** Documented DevOps processes based on reference architecture guidelines.

- **Opportunity Identification:** Utilizing questionnaires, assessment worksheets, and templates to identify opportunities for improvement.

- **GHAS Plan:** A defined plan for leveraging GHAS within Azure DevOps.

- **Governance Documentation:** Documentation to establish and maintain effective governance.

- **Change Management:** A documented process to manage changes effectively.

- **Accelerated Adoption:** Proven solutions to accelerate customer DevOps adoption and execution.

- **Market Approach:** Documents outlining our approach to bringing DevOps solutions to market.

- **Statements of Work (SOWs):** Clear and concise SOWs for various DevOps engagements.

Why MDS/LiveRoute, and Azure?

Simplified procurement process:

Microsoft Marketplace offers a streamlined procurement process that allows customers to purchase and manage their subscriptions in one place. This eliminates the need for customers to navigate multiple vendor websites and portals, saving them time and effort.

Access to system integrator expertise:

- Increase deployment frequency

- Reduce lead time for changes

- Lower change failure rate

- Improve time to recovery

- Centralized Knowledge Repository

Business Benefits

Faster time-to-market: Rapidly deploy and utilize DevOps on Azure to accelerate new initiatives.

Reduced operational costs: Optimize resource utilization and streamline management processes.

Enhanced business agility: Adapt to changing market conditions with greater flexibility and scalability.

Mitigate risks: Benefit from expert guidance and best practices for a secure and reliable cloud environment.

Customer Experience

Customer gets better onboarding experience on purchasing software subscription through marketplace, as it can provide integrated solution of product, professional service and managed services. Reducing procurement hassle.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
