

Data Innovation / Data Modernisation Assessment

What is the value?

Innovation drives profits and productivity. When you modernise your data, you gain real-world benefits, such as:

- Empowering employees and stakeholders
- Improving customer experiences and data security
- Enabling faster time-to-market

But every innovation journey is unique, depending on where you are, and where you want to go. Before you begin, it's important to have a strong understanding of your goals and requirements, to ensure that we can build the best roadmap possible to help you succeed and grow. That's exactly what this 4-day assessment provides.

How does it work?

Over the course of just four days, our experts gain an understanding of your cloud readiness and data maturity.

Our process includes a questionnaire and workshops. We also use proprietary assessment tools and transfer knowledge through best practices.

Deliverables

- ▶ An improved understanding of what your data migration or cloud deployment requires
- ▶ A report on your cloud readiness
- ▶ An overview of the next steps

Based on this efficient 4-day assessment, we will recommend the best next steps for you, including timelines and high-level strategy, so that you can take the next step in your innovation journey with confidence.
