Data Modernization  
Lift and Shift Proof of Concept

# Proof of Concept Offer

| Jump start your cloud migration with an example lift and shift. Move one application to the cloud and begin to experience the following benefits:

Focus on your apps, not the infrastructure and scaling

Reduce the overall cost of ownership for your solutions

Enhance performance through scalability and resiliency

Create redundancy across geographical locations

# Outcomes and Deliverables

- | This 3 week jump start effort is designed to provide an example of how a single application or workload can be moved to the cloud
- | We start with an assessment of your environment, your applications and your migration readiness
- | Then we move a single application to Azure PaaS
