LOGICALIS TEAMS MEETING – 2 HOURS WORKSHOP

Microsoft Teams for simplified collaboration

Microsoft Teams is the number one technology for any company transitioning to an age of hybrid work, remote collaboration, and communications

Microsoft Teams meetings help people stay focused and be more productive before, during and after meetings, so your teams save time and accomplish more together. Meeting space solutions play a vital role in facilitating collaboration, and many of today's room systems offer basic capabilities designed primarily for people who are physically present. Teams Rooms turn any meeting room into an easy-to-manage and inclusive space where everyone can collaborate efficiently

The Teams Meeting Workshop is a modular engagement to experience the vision for Microsoft Teams Meeting Rooms capabilities and Advanced Communication scenarios. This workshop is designed to guide you through the process of a simplified Meeting Room with reliable, high-quality, integrated solutions. Through demonstrations, use-case design, and deep-dive planning you will obtain actionable recommendations to deploy and adopt Microsoft Teams Meeting Rooms.

Enhanced Collaboration

Microsoft Teams Meeting allows for real-time collaboration with colleagues, regardless of their location. This can improve communication and productivity within the team.

Increased Efficiency

By holding virtual meetings using Teams, participants can avoid the time and expense associated with traveling to a physical location. It also supports the ability to share documents and collaborate on them in real-time.

Improved Accessibility

Teams Meetings can be accessed from a range of devices, which makes it easier for participants to join meetings from anywhere. Additionally, Teams Meetings offers a range of accessibility features to support participants with disabilities.
