

# Securely run your business with M365

**M365 Assessments**

# Considerations for your business

## Adoption

Are you leveraging the full productivity tools and comprehensive security features available to you?

## Security and compliance

Are you protecting your information and aware of sensitive information within your business?

## Collaboration

Do you have visibility and logging/auditing to ensure teams can collaborate securely?

## Innovation

Driving innovation is important, but how do you do this without compromising our security?

## Mobile Productivity

Do you want to deploy mobile productivity solutions but are concerned about security, device management, and upfront investment

## Flexibility

Do you need want to be able to personalize your organisations productivity based on organizational needs?

## Tool Rationalisation

Does your current licensing give you access to tools that overlap your existing technology set?

# Our three-step methodology

## Align

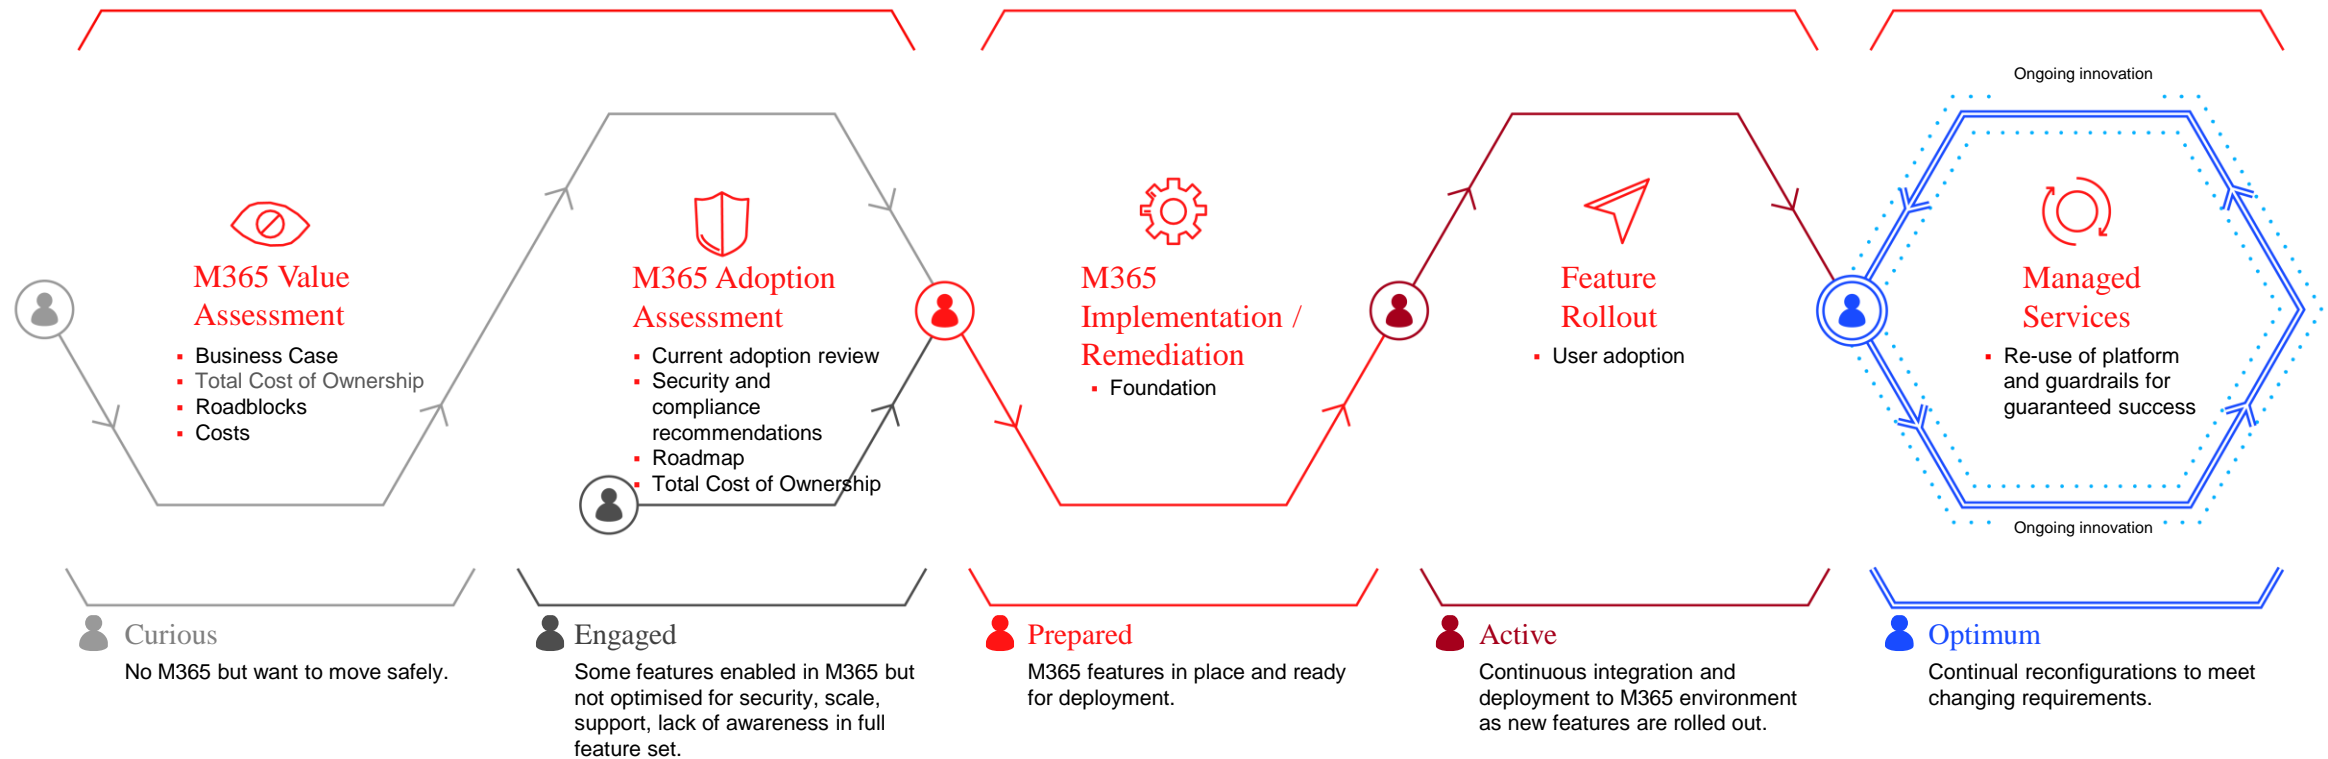

Create a blueprint for M365 transformation that aligns IT readiness and security requirements with business strategy and objectives.

## Transform

Implement a secure, modern cloud platform with guardrails that allow for future innovation and the quick migration of workloads.

## Scale

Continually innovate at scale while maintaining security and performance by leveraging managed services.

# M365 Assessment

- ▶ Environment analysis for potential risks and security issues
- ▶ Security roadmap to optimise environment for security and compliance
- ▶ Business requirements including investment requirement to achieve your objectives

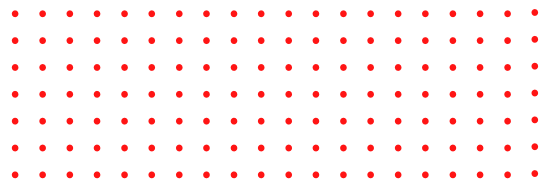

# Methodology

## Environment Analysis

### M365 Assessment

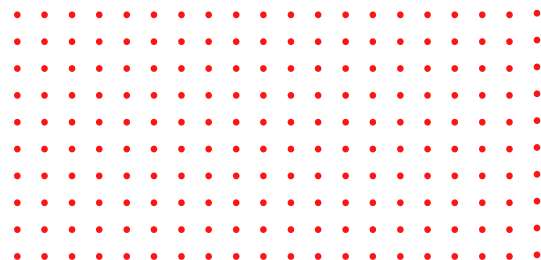

We conduct a thorough analysis of your environment and existing adoption to determine the potential risks, opportunities, and security issues, so you're ready for the next step.

## Security Roadmap

### Roadmap and strategy

We determine the right roadmap and strategy, so you can avoid the roadblocks and risks in optimising your environment for security and compliance

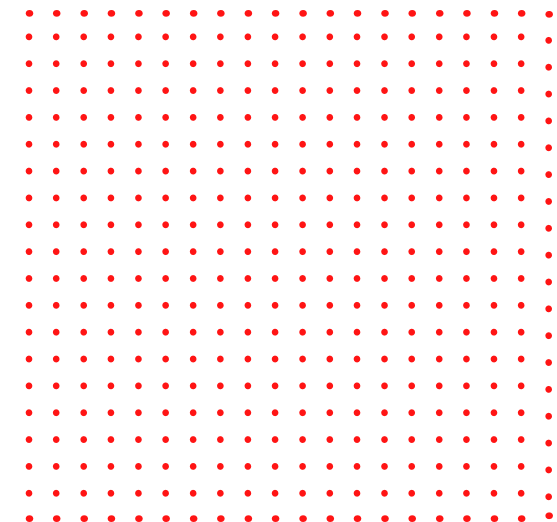

## Business Requirements

### Alignment Estimate

We provide you with an indication of the level commitment and investment required to achieve your objectives with an upfront estimation of the costs.

### Managed Services

At Logicalis we remain focused on ensuring your IT operations are always running at peak performance, so you remain focused on what you do best – running your business.
