# Optimize your Azure cloud costs

Get expert help to assess cost-saving tools and practices

Get a comprehensive cost analysis of your Azure environment

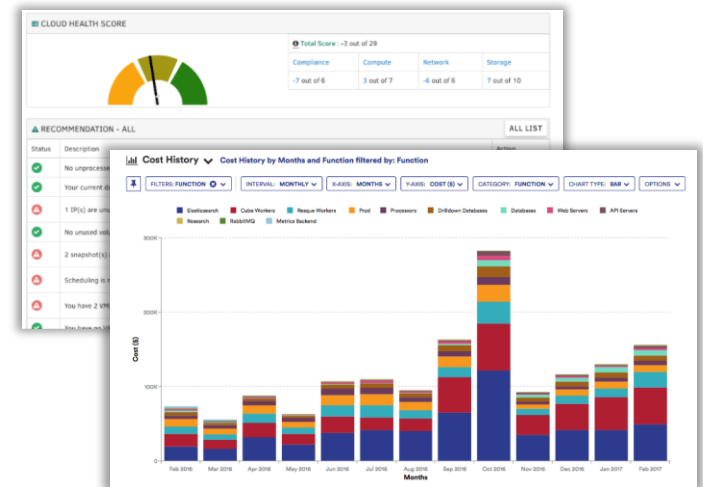

Identify opportunities to cut current Azure costs and identify wasted resources

Get expert advice on cost-saving strategies that work best for you

## How do you optimize Azure costs?

- ▶ Assess current and historical Azure costs
- ▶ Understand cost-drivers and spend patterns in your environment
- ▶ Identify deviations from cost-optimized environments around unattached disk volumes, idle VMs, blob storage, aged snapshots, and more
- ▶ Receive expert cost-savings advice on the best right-sizing and Virtual Machine RI strategy

## What we deliver

Cloud Certified Engineers to assess your current cloud environment

A comprehensive report of the state of your architecture spend trends, potential savings, and recommendations on long-term cost-savings strategy

## Solution Brief: Azure Cost Assessment

*“Logicworks cut down our cloud bill by over 60%.”*

## Why Logicworks?

- || Our cost assessment can analyze all aspects of your Azure cost strategy – tools, people, process – **far beyond what an automated tool can provide**
- || You get access to Cloud Certified Engineers who have built and optimized **hundreds of cloud projects**
- || We **rank cost optimization recommendations** by potential savings and effort, then develop a project plan to tackle these remediation steps
- || Optionally, we can implement these recommendations in 2-week sprints, allowing **your team to focus on core engineering tasks** while we optimize
