# HIPAA on Azure: Free Briefing

Get expert help to meet HIPAA/HITRUST on Azure

## Architecting Azure for HIPAA or HITRUST compliance can be complex.

Let our team help you:

- Understand your responsibility vs. Microsoft’s responsibility in terms of HIPAA requirements
- Decide which applications are best suited to Microsoft Azure
- Determine the right next steps for staffing, migration planning, architecture design, and audits

## What We Deliver

1-Hr Conversation with a Certified Azure Specialist

Expert advice about architecting Azure for HIPAA or HITRUST compliance: staffing, migration tools, security procedures, etc.
