Migrate Healthcare Workloads to Azure

Accelerate cloud migration + achieve HIPAA compliance

Accelerate your migration to AWS

Get security & HIPAA compliance built-in from Day 1

Access special funding from Azure + Logicworks

Our Migration Service

Need to migrate your HIPAA compliant workloads to Azure? We've helped dozens of healthcare companies accelerate migration, avoid common mistakes, and meet security and compliance requirements. Logicworks is your first step towards fast, secure Azure migration.

Case Study: NextGate

The global leader in healthcare identification software relied on Logicworks to design and build a HITRUST-compliant cloud environment. The result is that they reduced customer onboarding time 400%, increased profitability of their software, and have confidence that their cloud is always compliant.

“From their HITRUST certification to their compliance automation practices, Logicworks brings a maturity and level of expertise that clearly differentiates them from other cloud partners.”

- VP of Cloud Operations, NextGate

Solution Brief: Migration for Healthcare

“Logicworks is able to demystify the specifics of HIPAA best practices and engineer a compliant and DevOps-friendly environment from the ground up.”
