# VMware Horizon Cloud on Azure Kickstarter

## for Azure Virtual Desktop (AVD)

**orange**™ **Business**

When cloud desktops or applications are evaluated within your enterprise, the time is limited and without the experience in this area it is a challenge to deploy desktops and applications first time right. Adopting new cloud technology could be time consuming with the risk of losing focus on the success criteria defined by the business. The Horizon Cloud on Azure Kickstarter quickly enables Cloud-based desktops and applications that are directly consumable within your organization.

Horizon Cloud on Azure also includes support for Microsoft Azure Virtual Desktop, including Windows 10/11 Enterprise multi-session. Customers can now use the enterprise-class features and user experience of Horizon Cloud on Microsoft Azure with Azure Virtual Desktop.

## Your partner to start using Horizon Cloud

As a specialist in the area of End User Computing Orange Business has developed a comprehensive toolkit and best practices for Horizon Cloud deployments. By using this service, you can evaluate Horizon Cloud faster and ensure that end-users have a great experience the first time they use their new Horizon Cloud desktops or applications.
