

Accelerate Your AI Transformation with Copilot in 90

Experience the full benefits of Microsoft 365 Copilot while ensuring your data remains secure and compliant.

Enter the New Era of Work

With Long View's Copilot in 90 service, you can ensure secure, seamless deployment of Copilot, protecting against shadow IT and the risk of data loss. Over the course of 90 days, we guide your organization through the following four (4) stages:

COPILOT VALUE DISCOVERY

- **Map High-Value Scenarios**
Identify and prioritize use cases for Copilot, calculate potential ROI, and explore Copilot Studio to build AI-driven solutions.
- **Create an Actionable Roadmap**
Develop a clear and actionable Copilot roadmap that aligns with your business objectives.

DATA SECURITY ASSESSMENT

- **Assess Data Protection**
Evaluate your current data protection measures to ensure they meet the requirements for AI readiness.
- **Recommend Security Enhancements**
Provide actionable recommendations to improve data protection, governance, and compliance, tailored to Copilot deployment.

DATA SECURITY READINESS

- **Secure Data & Information**
Implement the necessary security measures to protect your data, ensuring it is ready for AI-driven operations.
- **Manage Copilot Governance**
Establish governance policies and security controls to manage and monitor Copilot's use effectively.

MANAGED PILOT & ADOPTION

- **Train End-User**
Deliver tailored training sessions to key user groups and establish a Champions Network to support Copilot adoption across the organization.
- **Coordinate Pilot**
Guide a managed pilot, engaging over 50 users from key groups to test and refine Copilot usage.
- **Plan Complete Rollout**
Provide a detailed roadmap outlining the next steps for fully adopting Copilot in your organization.
