

Ensure Your Organization's Data is Secure with Microsoft Purview

Empower your organization to safeguard sensitive information and strengthen compliance in just one (1) day with Long View's hands-on Microsoft Purview Training.

Confidently Secure Your Data

In just four (4) hours, Long View's expert instructors will guide your team through the tools and techniques needed to enhance data governance and security using Microsoft Purview.

SESSION ONE (1)

- **KNOW YOUR DATA**

Identify and classify sensitive information types using Purview Data Classification tools.

SESSION TWO (2)

- **PROTECT YOUR DATA**

Configure and deploy sensitivity labels, encryption, and auto-labeling policies.

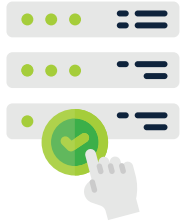

SESSION THREE (3)

- **PREVENT DATA LOSS**

Implement and manage Data Loss Prevention (DLP) policies to mitigate internal and external risks.

Empower Your Team with Microsoft Purview Expertise

Long View's data defense experts deliver online training that combines actionable insights and hands-on practice to help your team secure your organization's sensitive data effectively. Participants will achieve the following outcomes:

ENHANCED DATA GOVERNANCE

Learn to create and manage sensitive information types for organizational needs.

COMPLIANCE & SECURITY

Deploy sensitivity labels and DLP policies to strengthen your data protection strategy.

ADVANCED TOOL MASTERY

Explore Purview features like eDiscovery, Insider Risk Management, and Communication Compliance.

REAL-WORLD APPLICATION

Engage in hands-on exercises to ensure practical application and deeper understanding.
