Long View

Modernize Your Workplace and Strengthen Security with Windows 11

Seamlessly upgrade to Windows 11 for a secure, efficient, and user-friendly desktop experience with Long View's Windows 11 in 90.

Drive Business Transformation with Long View

In just 90 business days, transition your organization to Windows 11, ensuring business continuity and enhanced security every step of the way.

Long View delivers a seamless deployment and user adoption experience, up to **two (2) to three (3) times faster** than in-house approaches, through four (4) structured phases:

DESIGN

Assess devices, applications, and user personas to design core Windows 11 images, define a servicing strategy, implement security configurations, and develop test cases.

BUILD

Develop training and adoption materials to support change management and prepare the environment by building and testing Windows 11 processes across devices and use cases.

ACTIVATE

Begin a phased rollout starting with a pilot group, supported by targeted communications and end-user training, followed by deployment to 900 additional users.

OPTIMIZE

Gather feedback from early adopters to refine rollout strategies and enhance user experience by optimizing workloads, delivering ongoing OCM and training, and monitoring adoption to support continuous improvement.

OPTIONAL SERVICES

Long View offers a range of optional add-on services to support your unique Windows 11 requirements, including:

- Modern device management with Intune and SCCM.
- Device and end-user managed security with Long View's XDR Shield.
- Service desk support for end-users.
- Onsite support and scalability for additional users beyond the initial 1,000.
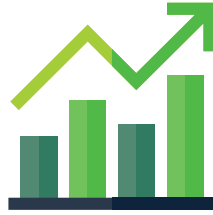

Accelerate Your Business with Windows 11

Move to a more secure and modern desktop environment to:

ENHANCE SECURITY

Protect your data, devices and identities with built-in security and role-based access to tools, apps, and data.

INCREASE PRODUCTIVITY

Enhance productivity with tools to streamline processes and optimize efficiency for workload management.

REDUCE IT BURDEN

Minimize IT overhead with smarter, streamlined device deployment and management.
