

LBAN CYBER SECURITY PLATFORM

**A SPECIALIZED SOLUTION
DESIGNED TO PROMOTE
CYBERSECURITY AWARENESS
AND EDUCATION AMONG
EMPLOYEES**

*TIE THE LOOSE ENDS,
TRAIN YOUR EMPLOYEES*

OVERVIEW

Deployed within SharePoint Online and seamlessly integrated with Microsoft Teams, our cybersecurity awareness platform combines video-based learning resources with assessments to educate employees, students, and users about cybersecurity best practices.

By providing a secure, user-friendly, and engaging learning environment, it helps organizations to strengthen their security posture and protect against cyber threats.

KEY FEATURES

SharePoint Online Integration:

Seamlessly integrates with SharePoint Online, making it easy to organize, access, and share video-based cybersecurity content within an organization's intranet.

Video Learning Library: A centralized repository for cybersecurity awareness videos, allowing easy organization by topics, difficulty levels, and more.

Microsoft Teams Integration: Directly accessible within Microsoft Teams, allowing users to access and discuss cybersecurity content without leaving the Teams environment.

KEY FEATURES

- **Interactive Assessments:** Create quizzes and tests that align with the cybersecurity video content to assess knowledge retention and understanding.
- **Progress Tracking:** Track individual progress, completion rates for courses, and video views.
- **Knowledge Gain Tracking:** Monitor individual and group knowledge gain over time to measure the effectiveness of cybersecurity awareness training.
- **User-Friendly Interface:** Intuitive for both educators and learners to navigate and engage with video content and assessments.

BENEFITS

- **Enhanced Security:** Educate employees and users on cybersecurity best practices to reduce security risks and protect against cyber threats.
- **Knowledge Assessment:** Measure the retention and comprehension of cybersecurity awareness content through relevant assessments.
- **Secure Learning Environment:** Deployed within SharePoint Online, ensuring data security, privacy, and compliance with regulatory standards.
- **Scalable Training:** Offer a flexible platform that can be adapted to various organizational and educational needs.
