

LTI MigExpress: A Seamless Journey to Microsoft 365

ABOUT LTI:

LTI has a long standing 360° partnership with Microsoft as a Strategic Partner, Vendor and Customer. As a Partner, LTI has made significant investments with Microsoft over the years in building capability, as well as to co-create joint offerings and solutions for our customers.

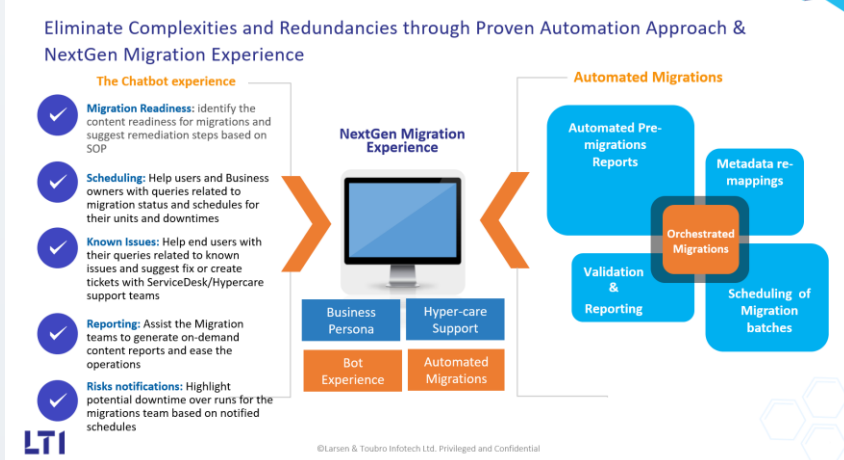

WHAT WE OFFER

Along with transformation of your workplace to a more modern experience as part of Microsoft 365 our key focus is on helping you create and sustain a cost-efficient, highly responsive and secure modern workplace platform. We provide a holistic set of transformational and managed services to modernize your workplace to enable a personalized user experience.

LTI's MigExpress is an evolving framework which has already been leveraged in multiple M365 migration projects. It has been improved and updated based on learnings from multiple iterations.

MigExpress framework covers all aspects of a migration project starting with Discovery, assessment, planning, designing, pilot & velocity migrations, hyper care support, user adoption & change management for seamless user experience.

This framework contains various templates, scripts, in house developed tools integrated with Microsoft 365 endpoints, 3rd party migration tools along with interactive reporting features by leveraging PowerBI to provide meaningful insights at each stage of the project.

Why LTI MigExpress?

Be future-ready

Our modern assessment tools integrated within MigExpress leverages Microsoft graph API in the back end to provide pre-migration, post migration and security assessment capabilities providing deeper insights into the existing environment and recommends a more modern & productive future state, MigExpress ensures seamless migrations to Microsoft 365 to keep you ahead of the curve.

Our enterprise grade migration framework outperforms the competition, costs less, and is fully compatible with multiple 3rd party migration tools like Quest, Bittitan, ShareGate, CloudM, etc.

Operate hybrid seamlessly

On-premises, in the cloud, and hybrid—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud to ensure your legacy applications are managed until we complete the migration to cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Cost optimization

Our assessment tools integrated within MigExpress leverages its license cost optimization capabilities for Microsoft 365 and migration tools to ensure that licensing is optimized and done based on the user personas.

MigExpress identifies and recommends cleaning up inactive accounts to ensure we are migrating the right workloads and not unnecessarily migrating the data which is not used anymore, reducing the overall migration efforts, timelines and costs.

One touch migrations

MigExpress enables enterprises to move their data from source to target through on-click options. We have multiple SaaS based tools that could integrate seamlessly with your environment and move the content effortlessly within the estimated timelines.

LTI MigExpress is a migration framework dedicated to Microsoft 365 workloads and can help seamlessly migrate your workloads from various types of source environment like Google Workspace, on-premise Exchange, SharePoint, Lotus notes, etc. to Microsoft 365. It can also be leveraged to perform tenant to tenant migration on Microsoft 365.
