

# LTM Services for Microsoft Agent 365

Governance, Security & Responsible AI for Enterprise Agents

Enterprise AI Agent Governance Platform

## THE PROBLEM

1.3B

AI agents predicted by 2028 (IDC)

82%

expect agents in 12–18 months

14%

governance ready today

Enterprises need governance BEFORE agents scale

- ❑ No enterprise visibility into AI agents
- ❑ Inconsistent security and access enforcement
- ❑ Undefined ownership and accountability
- ❑ Governance gaps at scale
- ❑ Uncontrolled agent proliferation
- ❑ Rising and opaque agent costs

## OUR OFFERING

### Agent Readiness

Agent readiness assessment, oversharing audit, licensing advisory, governance blueprint

*Discover blind spots, assess risk, build governance foundation*

### Agent Governance & Security

Agent 365 deployment, registry setup, access control, DLP, monitoring, governance pilot

*Deploy enterprise-grade governance & security controls*

### Agent Ops

Continuous governance operations, agent lifecycle management, QBRs, platform updates

*Continuously govern, optimize & evolve your agent ecosystem*

## BUSINESS OUTCOMES

- ✓ Full visibility into your AI agent ecosystem — zero blind spots
- ✓ Reduced data breach risk and improved security posture
- ✓ Faster, safer path from pilot to enterprise-wide adoption
- ✓ Regulatory confidence and audit-ready compliance
- ✓ Responsible AI by Design
- ✓ Real-time monitoring dashboards with executive-ready reporting
- ✓ Proactive risk management and future-proof operations

## CUSTOMER ENGAGEMENT MODEL

Engagement	Duration	Ideal For
Agent Readiness	4 – 6 weeks	Orgs exploring Agent 365, needing visibility into their agent landscape and governance posture
Agent Governance & Security	8 – 16 weeks	Orgs ready to deploy Agent 365 with enterprise-grade governance and security controls
Agent Operations	Ongoing (monthly)	Orgs with Agent 365 deployed, needing continuous governance and optimization
Full Journey	12+ weeks + ongoing	Orgs wanting a single partner from assessment through continuous governance operations

## WHY LTM

- ISO/IEC 42001 Certified - AI Management System standard
- RAIma HR Agent - 78K+ monthly active users
- Proven Copilot governance at 40K+ user scale
- Agent governance accelerators: scorecard, playbooks, dashboards

LTM bridges the gap — from governance assessment to continuous managed operations | Each offering is a standalone engagement — start where your organization needs it most
