

# MACROVIEW

## Never lose your files and emails in SharePoint or Teams with MacroView Document Management Systems

Navigate your SharePoint in a familiar tree-view

Drag & drop documents, emails, and attachments directly to SharePoint

Filter, sort, and search on metadata to find files quickly

Automatically file both incoming and outgoing emails with rules

Automatically capture metadata

Save directly from Outlook, Word, Excel, PowerPoint, and Adobe Acrobat and Reader

### DMS

DMS offers dynamic document and email management for Classic Outlook, SharePoint and OneDrive.

### DMS Pro

Everything in DMS plus integrated document management functionality within the desktop Microsoft 365 suite and Adobe.

### MacroView Mail

Save emails and attachments directly to SharePoint, Microsoft Teams, and OneDrive from any device, including iPhone and Android.

### DMS Next

Simple document management and search tools in New and Classic Outlook, and Microsoft teams, helping your team collaborate.

### MacroView Suite

The full suite of DMS products for all your SharePoint needs - DMS Pro, DMS Next, and MacroView Mail. Get access to all of the powerful features, ensuring your team spends less time searching for files, and more time working on the high-value tasks your business needs.

**“Without exaggeration, the MacroView solution saves each claims member an estimated one day of work each week on average.”**

Lee Oliver, Head of IT, The Mecro Group
