Macula is a Certified Data and AI Solution and Tier-1 Purview partner with Microsoft

Macula Microsoft Purview Jumpstart

Macula Microsoft Purview Jumpstart is a two-week, expert guided pilot that focuses on migrating or implementing a specific governance domain and related business entities. By using best practices in data governance and the capabilities of Microsoft Purview, we lead your team to ensure a seamless and secure migration with immediate, measurable results. This white-glove pilot not only delivers a quick win but also equips your team with the tools, best practices, and experience needed for full-scale implementations.
