

STREAMBOXY

VIRTUAL EVENT PLATFORM

THE DIGITAL HOME FOR YOUR EVENTS

ENTERPRISES

The seamless integration of online conferencing and livestreaming in one platform - without compromising on data privacy and IT security - makes STREAMBOXY unique.

Conduct conferences with thousands of attendees or build your individual digital customer platform. STREAMBOXY offers companies and event agencies a way to exceed participants' expectations and also paves the way for future hybrid events.

ARTISTS

We offer artists the opportunity to stream live shows into their fans' living rooms and interact with them in a way that even ordinary concerts can't offer.

STREAMBOXY brings the experience to smartphones, TVs or laptops and enables interaction through live voting, shopping or getting into the scene with your own webcam.

This new symbiosis between artists and online participants makes STREAMBOXY an outstanding player in the entertainment industry.
