Gold Application Development
Gold Datacenter
Silver DevOps
Silver Security

- Is your organization taking first steps to cloud? This 1-day briefing will help your development team to get up to speed with Azure. We will cover what are the possibilities with Azure PaaS services in the cloud and how to take advantage of them.

WHY

- Cloud development is different from traditional, understand how
- Avoid re-inventing the wheel with good overview of platform services offered by Azure
- Ability to estimate and control costs related to cloud
- Understand the common pitfalls
- How does the cloud differ from the traditional data center?
- Is there ready services which I can use instead of my own

INTRO / DEVELOPERS CRASH COURSE TO AZURE : HALF-DAY BRIEFING
