CONNECT+PROTECT
SOLUTION FOR YOUR NEEDS

USER AWARENESS & DATA SECURITY

To protect you, user awareness and additional security measures need to be at the forefronnt of planning

CHANGES IN TECHNOLOGY

Traditional technology approaches cannot manage the new reality of connected devices acorss the www

Legislation and Complaince

Don't underestimate the damage a breach could do to your business

One easy way to ensure your team remain securely connected, with access to the right data from wherever they may be, is to deploy Mangano IT's Connect Protection solution. Based on Microsoft 365 technologies,

Connect Protect manages five common challenges businesses are face right now. These include:

1. Threat Protection
2. Identify & Access Management,
3. Security Management
4. Information Protection
5. Compliance

If you need help working out how to solve any of these five common business challenges, reach out to one of the Mangano IT team to learn how we can support your business.

- Ensure data compliance through Compliance Manager
- Limit confidential personal data from leaving your busines
- Limit access of personal data to only required employees
- Secure data on any device accessing your information
- Prevent opening of lost or stolen data files
