

ASSESSMENT CRITERIA

TECHNICAL INFRASTRUCTURE

The assessment evaluates whether your current technical setup, including hardware and network capabilities, can support Microsoft 365 Copilot.

SOFTWARE COMPATIBILITY

Compatibility with existing software systems is crucial. The assessment ensures that your Office applications and other software can seamlessly integrate with Copilot.

EMPLOYEE SKILL LEVEL

The digital literacy of your workforce is key to adopting new technologies. Our assessment identifies the training needs to make your team Copilot-ready.

DATA READINESS

Microsoft 365 Copilot leverages your organizational data. The assessment checks the readiness of your data in terms of quality, structure, and accessibility.
