Windows 365 to support hybrid workforce

- Personalized: all your apps, content and settings, streamed from the Microsoft cloud to any device
- Powerful: scalable Cloud PCs bring the Windows 11 experience to you, on any device
- Simple: provision and deploy Windows on a Cloud PC today, right from Microsoft Endpoint Manager or at windows365.microsoft.com
- Secure: enhancing the security benefits of Cloud PCs with new Windows 11 security features

Mannai Cloud PC Onboarding Engagement

- Program Overview Session: Arrange a detailed Overview presentation covering the features and engagement model.
- Assessment: Mannai will work to have a detailed assessment for existing environment covering the identity and endpoint management.
- Provisioning: Mannai will work with existing tenant for provisioning of Windows 365 Cloud PC
- Enablement: Walk through of the deployed Windows 365 machine
