MAQ Software

We exist to build great software

About Us

MAQ Software delivers innovative software solutions to Fortune 500 companies, employing agile engineering techniques to accelerate initiatives. These solutions empower customers to drive transformative changes across various industries such as technology, retail, energy, and healthcare.

Our expertise includes Data Analytics, Artificial Intelligence (AI), Machine Learning (ML), Data Modernization, Reporting & Visualization, Business Applications, Modern Apps, and Cloud Services. This focused expertise enables clients to build stronger customer relationships, drive sales, and identify new opportunities.

As a Microsoft Premier Supplier and Solution Partner for over 2 decades, Microsoft honored us as the Microsoft Power BI Partner of the Year in 2021 and awarded us 7 specializations—a feat only a few Microsoft Partners have accomplished. Companies must pass rigorous evaluations and assessments for each specialization awarded, serving as a testament to our expertise.

Customers recognize us for delivering quality architecture and governance frameworks, optimized reports, and team capability improvements through training programs. Daily software updates, agile practices, domain expertise, and prompt feedback implementation are additional elements our customers benefit from.

Microsoft Specializations

Analytics on Microsoft Azure

AI and Machine Learning on Microsoft Azure

Data Warehouse Migration to Microsoft Azure

Microsoft Low Code Application Development

Migrate Enterprise Applications to Microsoft Azure

DevOps with GitHub on Microsoft Azure

+3 More

Expertise in Azure

We have conducted numerous transitions for clients, shifting their data operations from on-premises systems to the Azure cloud technology stack. Some highlights from our experiences are listed below:

Successful execution for top-tier clients

We've executed and maintained more than 150 Azure cloud deployments for Fortune 500 enterprises, ensuring seamless transitions and operational excellence.

Streamlined business operations

Our team has developed powerful Azure-driven automation tools and utilities that improve business efficiency. These tools are designed to optimize various operational aspects.

Expertise across key technologies

Our projects showcase our proficiency and dedication to excellence by using cutting-edge Azure technologies. This includes Azure Data Factory, Azure Databricks, Power Platform, and Azure Synapse—all of which enable our clients to harness the full potential of cloud-based solutions.

Azure Achievements

Developed an optimized cloud solution and conducted a comprehensive assessment of the existing infrastructure against industry-leading best practices.

Formulated a strategic migration plan and successfully transitioned our client's legacy on-premises enterprise solution to the newly optimized cloud-based architecture.

Used the robust capabilities of Azure Synapse to process vast volumes of retail data at accelerated speeds, enabling more informed and timely business decisions.

Pioneered the design and delivery of real-time reporting solutions within the Marketing domain using Azure Event Hubs and Azure Stream Analytics.

Implemented near real-time sentiment analysis of survey responses within the Events domain by harnessing the capabilities of Azure Cognitive APIs.

Used advanced stream data processing techniques with Azure Databricks to achieve near real-time reporting for enterprise sales data.

Why choose MAQ Software?

Expertise

Our certified Cloud experts have extensive experience in cloud migration and visualization

Smooth Transition

We ensure a seamless transition to Azure from different data sources

Custom Solutions

Tailored migration strategies to meet your specific business needs.

Data Security

We prioritize the security and privacy of your data during the migration process.

Training

Comprehensive training for your team to maximize their Azure skills.

Services Offered

Migration

Seamlessly migrate your on-premises systems to the cloud, creating a unified source of truth that spans your entire organization.

Optimization

Drive cost-efficiency by identifying and removing underutilized resources within your system, reducing unnecessary expenses.

Consulting

We provide a range of consulting services tailored to your unique requirements are created to help you achieve your objectives

Infrastructure services

Improve the reliability and scalability of your infrastructure with our comprehensive services and get ready to support your business needs.

Security services

Protect your data and assets with our advanced security measures, ensuring compliance with industry standards and regulations
