

MAQ Software

Bring the Power of AI to Data Visualization

About Us

MAQ Software delivers innovative software solutions for Fortune 500 companies. Using the latest agile engineering techniques in a focused and disciplined manner, we accelerate software initiatives that enable our customers to transform their industries. We serve customers in multiple industries including technology, retail, energy, and healthcare. We focus on Data Analytics, Artificial Intelligence (AI), Machine Learning (ML), Data Modernization, Reporting & Visualization, Business Application, Modern Apps and Cloud Services at our four state-of-the-art engineering centers located in Washington state in U.S and India. We help our clients build stronger customer relationships, drive sales, identify new opportunities, and analyse marketing results.

Our customers consistently recognize us for providing architecture and governance frameworks, implementing best practices to optimize reports, and building team capability through training programs. Our customers benefit from daily software updates, agile practices, domain expertise, and quickly implemented feedback.

Competencies

Business Application

Delivered numerous enterprise line-of-business applications that replaced complex processes through automation and innovative utilities using Dynamics 365 and Power Apps.

Data Modernization

Modernized applications and data across the customer organization leveraging Microsoft Azure Services, making it discoverable, trustworthy, understandable, and trackable.

Reporting & Visualization

Developed executive reports & dashboards for enterprises harnessing culture of data driven insights. Contributed 40 custom visuals to Power BI community through AppSource.

Modern Apps and Cloud Services

Implemented several enterprise-scale, modern, and accessibility-friendly solutions using micro services architecture.

Analytics: ML & AI

Enabled enterprises to uncover actionable insights from their data by building transparent, reliable, and interpretable ML & AI
