We exist to build great software

About us

As the 2021 Microsoft Power BI Partner of the Year, we enable leading companies to accelerate their business intelligence and analytics initiatives. Our solutions enable our clients to improve their operations, reduce costs, increase sales, and build stronger customer relationships.

Our clients consistently recognize us for providing architecture and governance frameworks, implementing best practices to optimize reports, and building team capability through training programs. Our innovative tools and 40+ certified visuals expand Power BI capabilities to save time for decision makers.

As a premier supplier to Microsoft for two decades, our clients benefit from our extensive insights into the platform and engineering practices. Microsoft has awarded us seven specializations for meeting Microsoft's highest standards of service delivery. Our clients improve their implementations with breadth and depth of our expertise.

With globally integrated teams in Redmond, Mumbai, Hyderabad, and NOIDA, we deliver solutions with increased velocity and tech intensity. Our daily delivery and feedback model offers the flexibility to adapt solutions to changing business needs.

Power Platform expertise

As an early adopter of the Power Platform suite, our team excels in developing low/no-code solutions. We've delivered over 100 solutions with Dataverse, SharePoint List, Azure SQL, and Online Excel backendsó and the number continues to grow.
