

M365 Adoption Workshop

Explanatory and Exploratory Workshop aimed at customers with little or no cloud presence. Discovery/Requirements Analysis coupled with presentation of technologies. Delivery of next steps report.

Who is this for?

- Perfect for new or existing clients with on-premise infrastructures.
- Startups of any size
- Customers involved in upcoming mergers/divestitures

Customer Benefits:

Through this assessment you will gain

- Knowledge around current M365 feature sets and capabilities
- Understanding of benefits of modern working models in conjunction with capabilities of available technology
- Planning basis for any required business change

Deliverables:

Documented record of workshop engagement summarising technologies discussed and possibilities considered around appropriate technologies e.g.

- IAM/Azure AD/user management
- Device management, security, compliance
- Exchange Online
- SharePoint Online
- Teams
- OneDrive for Business
- Application sets

Provision of next steps report/proposal

Timescale:

Can benefit any size business, and can focus on broad range of M365 technologies, or be more focused around specific areas if required:

- 3 - 6 day engagement
 - 1 - 2 day analysis
 - 2.5 - 5.5 days report writing
 - 0.5 days presentation of findings

Ideal for startups looking for quick and ready IT infrastructure and can be further scaled for enterprise

Cost £3,500 - £6,950
