Marijuana Framework - The Ultimate METRC Integration SDK

Streamline Your Cannabis Compliance & Automation

The Marijuana Framework METRC Link SDK is a game-changer for cannabis businesses and software developers looking to integrate seamlessly with METRC. Designed to simplify compliance, automate workflows, and accelerate development, our SDK empowers you to build fully compliant, scalable, and efficient cannabis applications with ease.

Why Choose Marijuana Framework?

- Effortless METRC Integration - Say goodbye to complex API calls. Our SDK handles the heavy lifting so you can focus on building great applications.

- Comprehensive Management - Gain full control over facilities, products, lab tests, locations, packages, sales, strains, tags, and more.

- Rapid Development - Save time and money with pre-built API endpoints that make cannabis compliance easy to implement.

- Flexible & Scalable - Whether you are a startup, enterprise, or SaaS provider, our SDK adapts to your needs.

- Language-Agnostic - Use your preferred programming language, including VB.NET, C#, Python, and JavaScript, for seamless METRC integration.

How to Get Started

1. Sign up at the Developer Portal: https://developer.marijuanasoftwarellc.com

2. Subscribe to the API via the Azure Marketplace: https://azuremarketplace.microsoft.com

3. Obtain your OcpApimSubscriptionKey and start integrating! (Requires a METRC integrator key.)

Who Can Benefit?

- Cannabis Dispensaries - Automate compliance reporting and sales tracking.

- Cultivators & Processors - Manage plant tracking, lab testing, and product packaging.

- Software Developers - Build custom POS systems, analytics dashboards, seed-to-sale tracking, and more!

- Regulatory Compliance Experts - Ensure legal adherence with real-time tracking and reporting.

Seamless API Access & Code Flexibility

Our SDK provides simple plug-and-play functionality with powerful API access for developers who need complete control. Whether using the SDK's built-in features or interacting directly with the Marijuana Framework API, integrating METRC has never been easier!

C# Code Sample

```csharp
// C# Example: Fetching Facility Data
var connection = new MetrcConnection(OcpApimSubscriptionKey, userName, password, metrcState, licenseNumber);
var facilities = await connection.Facilities.GetFacilities();

foreach (var facility in facilities)
{
    Console.WriteLine("Facility License: " + facility.License.Number + ", Facility Name: " + facility.Name);
}
```
