

Cloud Readiness Assessment

Helping you on your journey towards innovation and growth

Are you prepared to harness the full potential of cloud computing? Our expert team will conduct a thorough evaluation of your current IT infrastructure, applications, and workflows to determine your readiness for the cloud. With a focus on cost optimization, scalability, security, and compliance, we'll provide you with a comprehensive roadmap tailored to your organization's unique needs. Embrace the future of technology with confidence, reduce operational costs, improve agility, and stay ahead of the competition. Let us help you make an informed transition to the cloud and embark on a journey towards innovation and growth.

THE BENEFIT

A Cloud Readiness Assessment is a critical step for organizations looking to leverage the benefits of cloud computing. It provides a holistic view of an organization's IT landscape, enabling strategic planning, risk mitigation, and cost-effective adoption of cloud technologies to drive business growth and innovation.

- Build a business case for digital transformation
- Identify areas of your business that require attention prior to migration
- Make well-informed cloud strategy and organizational decisions

OUTCOMES

Be confident in your readiness to migrate to the cloud because of the guidance and recommendations your trusted partner provides you.

- Clear Cloud Strategy
- Workload suitability assessment
- Infrastructure and application modernization plan
- Risk and cost analysis
- Skills and training assessment

BUSINESS-CENTRIC. OUTCOME-BASED. MEASURABLE.

At Mariner, our team of consultants, solution & delivery experts center their efforts and engagement around a single most important success criteria: to deeply understand your business challenges and deliver value through how we help you solve them. To Mariner, it's more than just delivering. It's about being invested in your success and growth.

ASSESS PLANNING AND PREPARATION

Defining the business challenges is the foundation of what we do. We work directly with your business leaders, stakeholders, and end-users to validate your objectives and identify the suitability of your systems for the cloud. Mariner will work with your business to define what your successful migration will look like and how to measure your readiness for it.

CURRENT ENVIRONMENT ANALYSIS

There is more than technology that needs to be analyzed prior to migrating to the cloud. Mariner will analyze your business processes, industry regulations, and organizational readiness prior to migrating to the cloud.

CLOUD COMPATIBILITY AND READINESS EVALUATION

Not all systems nor parts of your organization may be ready for your journey to the cloud. Mariner will measure your systems, organization, skill sets, operations, and processes to industry standards with the goal to provide a clear picture of how your business can harness the full potential of the cloud.

RECOMMENDATIONS AND ROADMAP

What good is an assessment of your business without some guidance of how to get from where you are today to where you want to be. Mariner will work with you to understand your readiness for the cloud and provide actionable recommendations to ensure your journey to the cloud is successful.
