GALGOTIAS UNIVERSITY

**Mr. Dhruv Galgotia**
*CEO, Galgotia University*

"

The Campus Management System by MasterSoft is being implemented at Galgotias University and is starting to prove beneficial to us as it is enhancing the connectivity and data visibility  across the campus. All the modules such as academic and administrative processes like admissions, fee collection, examination, time-table management, course registration, library management student feedback and accounts management are being implemented  to achieve smooth working in the university.
The automated system implemented so far will provide accurate, real-time data which  will help us to achieve greater efficiency.

MasterSoft has a promising team of young professionals who are customising  the ERP as per our specifications which will ensure that our processes become easy and student friendly.

Most of the data was converted and migrated  to the MIS and put on a single centralized database. Data of several thousand students and  multiple unique courses, from year 2011 was and is being migrated to achieve maximum accuracy.

The mobile apps given to students is providing a means to communication easily. Faculty was able to connect with the students from anywhere, anytime.
The student diary app has been most liked thing among students and faculty alike since it is an easy and quick way to access information.

Implementing MasterSoft ERP has been a great step towards Digital India and the university is aiming towards a complete, compliant and compatible digitalization in all aspects of academics."

## ABOUT GALGOTIAS GROUP

Established in 2011, the GU strictly believes in 'students-first' philosophy and claim that it is a big reason why they are consistently ranked among India's top universities.The focus of Galgotias Group is on a low student-to-faculty ratio that promotes plenty of personal attention and mentoring opportunities.The University, based in Greater Noida, has more than 100 Undergraduate and Postgraduate programs and caters to over 20,000 students.
