Microsoft 365 Copilot Readiness Assessment

Get your organization ready for harnessing the potential of AI and Microsoft Copilot with Maureen Data System's M365 Copilot readiness assessment

Unlock the potential of AI

Unlock the potential of AI within the Microsoft 365 applications you're already familiar with. Copilot seamlessly integrates the capabilities of extensive language models (LLMs) with individual user data from Microsoft Graph and Microsoft 365 applications.

Microsoft's Copilot technologies not only promises innovation but a better way of doing things we have always done. It is a whole new way to work!

Join Maureen Data Systems as we establish a roadmap that will include the following:

- Determine how your Microsoft 365 and Azure investments are impacted by Copilot.

- A review of technical requirements and what's needed to get your organization AI and M365 Copilot ready.

- An overview of Microsoft 365 Copilot including product demos and Microsoft's approach to responsible AI.

- Learn which of the many Microsoft Copilot solutions may work for you enterprise.

- Establish a real-world plan that contains a strategic vision and objectives for your enterprise, Microsoft Copilot adoption!

Engagement Goals

Grounded in business data, Microsoft 365 is designed to help your organization unleash creativity, unlock productivity, and level up skills.

- **Assess the needs of your employees** - Identify the high-value Microsoft 365 Copilot scenarios for your organization across creativity, productivity, and skilling.

- **Accelerate outcomes using Microsoft 365 Copilot** - Showcase M365 Copilot in real-world scenarios

- **Develop a solution plan for enhancing outcomes** - Develop a plan to implement recommendations based on prioritized scenarios.

M365 Copilot Readiness Assessment

Benefits

- Cost efficiency

- Creativity boosts

- Up level skills

Why should you get ready for Copilot?

- Secured tenant

- Better document permissioning

- Potential for time savings/employee efficiency

- Microsoft best practices

- Offsetting costs

- Learn AI terminology

Approach

Our two-day workshop is an interactive engagement conducted over the course of two 4-hour workshop sessions aimed at learning what M365 Copilot is and how it will help your organization be more efficient, productive, and accelerate expertise and skills.

Assess
Define scope, identify business stakeholders and gather information on key business scenarios. Complete and review readiness assessment and guidance.

Art of the Possible
Showcase the intelligence added to employee experience by unleashing creativity, unlocking productivity, and leveling up skills (included in the demos).

Build the Plan
Develop a plan to implement recommendations based on the prioritized scenarios. Define next steps and timeline to develop and implement the solution.

Whether your organization is just curious about Microsoft CoPilot and what it can do, or ready to invest in Microsoft 365 Copilot licensing, this workshop aims to unite your business to determine the value of AI in your organization.
