Data & AI and Digital App Solution Designated Partner

Global System Integrators: Global Companies that specializes in bringing together component subsystems into a whole and ensuring that those subsystems function together, a practice known as system integration.

IT Consulting Services: are Companies that help clients assess different technology strategies and, in doing so, align their technology strategies with their business or process strategies. These services support customers' IT initiatives by providing strategic, architectural, operational and implementation planning.

Staffing & Workforce Solutions: are Companies that provide Staffing and/or Workforce services & solutions that include temporary staffing, permanent placement, career transition, re-skilling and talent development, as well as outsourcing and consulting.

MDS Microsoft Business Data Assessments

Ready to use your data more effectively ?

Overview

The Maureen Data Systems' (MDS) Microsoft Business Data Assessment is intended to help customers develop a data strategy around specific Microsoft technologies while forming a clear roadmap for technical success. The Maureen Data Systems business data assessment will execute this assessment effort through three specific milestones to help customers make sense of the relevant data challenge and strategically align it to the stated business goal.

MDS Microsoft Business Data Assessments

Ready to use your data more effectively ?

Milestones

Milestone 1 | "Identify Business Data Challenge and Business Data Goal"

Milestone 2 | "Review, assess then Capture Current Business Data State"

Milestone 3 | " Roadmap and Recommend Future-State for Identified Business Data Goal"
