

Return to Work 1-Week Implementation Service

Ensure your team returns to the workplace safely and confidently
with minimal start up time

Return to Work is a Microsoft business solution built on the Power Platform. As a Microsoft implementation partner for almost two decades, Mazik Global has a deep understanding of the Power Platform and implementing Microsoft business solutions globally.

We use **rapid implementation methodologies** to deliver the standard Return to Work solution in under **one week** so you can start seeing value quickly. Our team not only configures and implements the Return to Work application, but also trains your support team for a smooth transition.

Implementation Features

Deployment of Microsoft PowerApps

Deployment of the Return to Work application

Loading customer-specific data

Configuring out-of-the-box features based on your customer data

Conducting training for system admin support personnel

Providing smooth handoff of solution to customer IT team
