What does it mean about Modern Windows and Office & stay up to date?

Deploy Modern Windows and Office

Move to latest build of Windows 10

Move to latest build of Office 365 ProPlus

Stay up to date

Deploy monthly quality updates

Deploy feature updates every 6 -12 months

Windows Analytics for monitoring and reporting

Why should you deploy Modern Windows and Office & stay up to date?

Deploy Modern Windows and Office

End of life

- Windows 7 extended support ends January 14th, 2020
- Office 2010 extended support ends October 13th, 2020.
- Beginning in October 2020, only Office 365 ProPlus and Office desktop clients in mainstream support will be able to connect to Office 365 services.

Stay up to date

Security

- New security features added with every semi-annual release of Windows 10 & Office 365 ProPlus to stay ahead of attackers
- 18 months support for each feature release
- Windows 10 is the most secure version of Windows yet and includes advanced security features for added protection

Why Office 365 ProPlus?

Office perpetual

Limited in-client collaboration

Limited cloud integration

Static features; subset of ProPlus

Security updates only; manual patching

One PC per license

Office 365 ProPlus

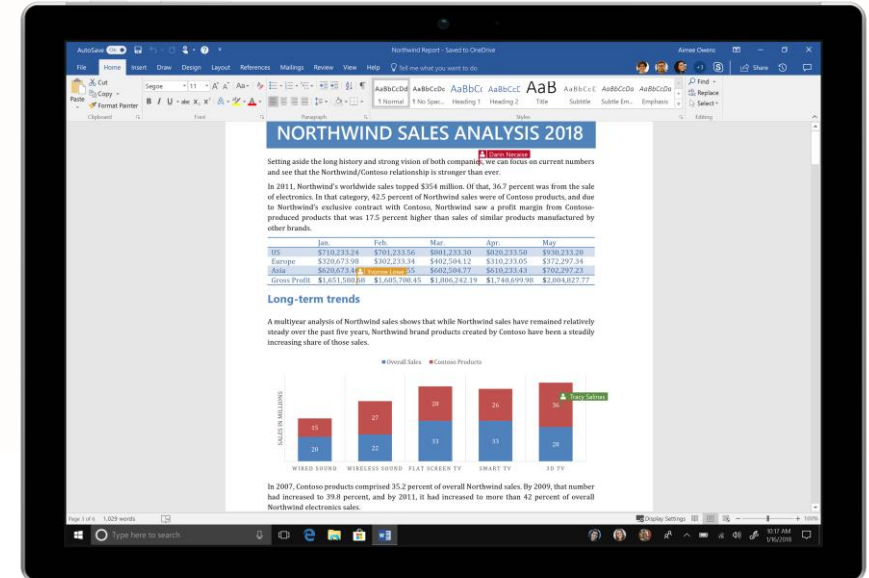

Real time co-authoring, @mentions etc.

Cloud and AI powered features

Richer and better every month

Security that evolves with threats

5 PCs/Macs, 5 tablets, 5 mobile + web

Reasons to deploy ProPlus

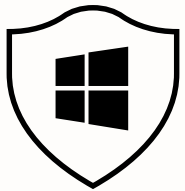

More secure	ProPlus offers the most secure way to connect to Office 365 services.
Always on	99.9% uptime guarantee, your users will never be without the apps your business relies on.
Anywhere access	Access your work across all your devices with 1TB OneDrive storage and multiple installs.
Intelligence	Users can do their best work using Intelligent features built into Office 365 ProPlus.
Collaboration	Built-in collaboration features enable teams to work together seamlessly.
Proactive app compatibility	Make sure existing apps function optimally while assessing macros and add-in compatibility.
End-of-support	End-of-support is coming for Windows 7 and Office 2010 in 2020.
Lack of connectivity	In 2020, all versions of Office released before 2015 will be unable to connect to Office 365.
Shorter support windows.	Support policies for Office 2019 will be reduced to 5 (+2) years.
Mitigate shadow IT	Collaboration in apps like WXP means less leaks via unauthorized apps outside your firewall.

Security and Compliance

Windows 10 and Office 365 ProPlus provide new ways to protect your data, devices and users and quickly detect and respond to threats. Also, learn how to deal with common problems associated with disk encryption, anti-malware apps and policies when moving to Windows 10.
