Go Viva Live in 3 or more Weeks!

MDS will assist getting your Viva Reimagine Employee Platform and User Adoption Plan for your Organization go Live including modules of your choice within 3 or more weeks based on your business objectives and requirements.

Why MDS?

With an experienced Viva solutions practice and delivery success stories, MDS will help envision your desired state – one that brings people, teams, applications, and data together with modules of your choice to encourage information growth with Viva Topics; discover, learn, and track learning needs with Viva Learning; or leverage OKRs to align teams on a common business goal-setting and management methodology with Viva Goals. Through Envisioning/Readiness sessions, our team will capture your priorities, business challenges, and culture to design and plan your New Platform and Adoption roadmap meeting your needs and delivering your Complete Reimagined Employee Experience with MDS Viva Readiness Solution Package.

Get started today with our Viva 3-week+ Go Live and Adoption Plan!

✓ MDS will conduct Envisioning/Readiness sessions during this engagement to deep-dive analytics to solve high-value business challenges and help you identify Viva Modules to go live within your timelines and business objectives.

✓ MDS will conduct Workshops and Adoption Ready sessions for mix and match modules implementation with Viva Connections, Viva Topics, Viva Learning, or Viva Goals in 3 or more weeks.

Approach & Deliverables

Plan

- **Identify and prioritize your Deployment.**
- **Assess your resources.**
- **Plan** awareness and role enablement activity and Early Adoption program (EAP)
- **Setup and configure** tenant, permissions and settings for your module selection.

Deployment

- **Configure insights, learning, topics, or OKRs sources** and systems of record by connecting the content providers and management systems.
- Configure sources to **connect to your custom-built and User Generated Content (UGC),** for your selected Viva Module.

Adoption and Managed Services

- **Drive trainings and guidance for leaders** and managers to maximize investment.
- **Set up a governance process** to review resources for your modules.
- Ensure fresh content is featured in Viva Modules by **managing your content services and targeting the right groups.**
- **Provide Support and Knowledge transfer to designated groups.**
