

Delivered by:

SMB CLOUD EVALUATION PROGRAM

Maximize your existing investment with the Microsoft Cloud

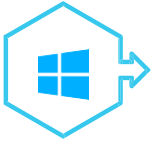

MDS and MSFT Engineers will help you analyze your IT environment and provide actionable data-backed recommendations and priorities.

How does this help?

Reduce the dependency of aging on-prem infrastructure and expensive datacenters.

Maximize your existing Microsoft 365 licensing & investment

Why Cloud Evaluations?

1 Uncover low hanging fruit

2 Develop Strategy

3 Increase Velocity

How can I improve?

Leverage Microsoft to harden and expand your Cloud Security Maturity and build a long-term Strategy of Protection

Accelerate Cloud velocity & grow your digital transformation story

Why are Cloud Evaluations Critical?

Identifying ways to modernize & optimize IT assets, mitigate ever evolving security risks, and reduce cost & complexity. Envision the possibilities of how cloud can help, estimate spend, evaluate ROI investment, and set priorities for cloud adoption.
