1 Aggregate all requests into a single location

Eliminate faxes and receive all ROI requests through one centralized online system with flexible options for requesters via web, portal, and API.

4 Detailed compliance reporting and auditing

Medchart provides detailed logging and reporting for NIST 800-171, ITAR, HIPAA, GDPR, FINRA. We provide easy annual compliance audits.

2 Simplify and improve identity and consent

We build custom integrations to match patients with their requested records, authenticate their identity, and only release matched records.

3 Collect payment and release automatically

We provide full invoicing, billing, and fee collections as a service with flexible payment options – credit card, check and financing.

✓ Reduce liability   ✓ Reduce costs   ✓ Improve compliance   ✓ AES-256 encryption   ✓ Reduce costs

Increase Utilization Rates of Existing IAS Implementations

Medchart integrates with Smile DH to increase the utilization rate of existing IAS FHIR Endpoints allowing payers to save costs.
