

Medius Spend Management

Managing finance should be about strategy, not stress. Medius Spend Management provides a firm foundation in payables, allowing you to build to overall financial excellence.

Medius AP Automation

Automate invoice processing to save costs and get the books closed on time

- Native capture uses machine learning to quickly determine the right supplier and all header and line details for complex invoices
- All invoices are captured, digitized and processed in one intuitive interface to accelerate matching and approval process
- Full visibility into liabilities and cash flow impact gives you full control over cost and compliance

Medius Pay

Your gateway to total payment management across all payment methods and geographies

- Streamline and consolidate supplier payments in a single UI integrated with Medius AP Automation
- Turn costs into revenues with virtual card payments which generate a guaranteed dividend for your business
- Send payments in 160+ countries and 130+ currencies with no international wire fees
- Improve security and audit to reduce risk with a fully electronic invoice to pay process

Medius Analytics

Actionable data tells teams what to do and why

- Out of the box dashboards provide instant insight for financial and operation decision making
- Find targeted areas for improvement by tracking processing and approval time
- Key data on your internal process, as well as detailed spend analysis and supplier performance

Medius Supplier Portal

A place for your suppliers to register, record and update their details in a single, cloud-based location, helping you gain control of visibility of all your supplier data

- Invite suppliers to enter data in your portal and eliminate tasks associated with setting up and managing supplier details, saving you time and effort
- Eliminate the email and phone call back and forth for regular supplier inquiries
- With full visibility to their transactions and information suppliers always know where they stand

LUSH

FRESH HANDMADE COSMETICS

Medius has been really important for me to be able to do my job - **gone are the days where we go to cabinets and pull invoices!**

AP Manager, Lush

Medius Procurement

Take control over indirect spend to avoid last minute invoices and chasing people for approvals

- Eliminate costly, unapproved purchases to ensure all organizational buying takes place within pre-existing agreements
- Increase straight through processing rates with PO Match Invoices
- Reduce labor by automating many of your buying processes, including workflow approvals and generating POs for automatic distribution

Medius Sourcing

Go to market quickly and easily to secure goods and services at the right price

- Library of templates for simple or complex sourcing and auction events
- Online collaboration ensures all internal stakeholders and suppliers are involved and provides an audit trail
- Streamlined processes allow you to easily create, manage and score events, meaning more opportunities for savings

Medius helped with our cost control. We can clearly see now where money is being spent, so **we can ensure that we aren't wasting money on expensive suppliers** and aren't duplicating effort.

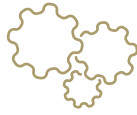

Finance Transformation Manager, CEVA Logistics

Medius Contract Management

Stay on top of terms and renewals with a secure central repository for all contracts

- Secure cloud repository with version control and audit trail
- Mobile electronic signature approvals with DocuSign
- Complete control and visibility of contracts to improve contract compliance

Medius Connect

Rapid integration underpinning a cloud application network

- Access pre-built integrations to back-office ERPs and ecosystem partners
- Full cloud delivery - no hardware or software to maintain
- Short and predictable implementation time with out of the box connectors

Medius AP Automation **enabled us to reach high automation rates** right from the start. When an invoice is not automatically matched, we identify the issue and contact the supplier to have them correct and resend the invoice so that we can leverage automatic matching and further improve our process.

PuPim Beijen, Group NWC Manager, SoftwareONE

About Medius

Medius links invoice capture, processing, and payment to replace the worry and wondering of managing AP with calm and confidence. Medius goes far beyond basic automation by using artificial intelligence to do the work - so invoices get coded, approved and paid; you get to go home and rest easy; and your business can trust your budgets and forecasts.
