

Medius Invoice-to-Pay AP Automation

Say goodbye to paper invoices and outdated payment methods, and hello to a less stressful workday.

Our cloud-based solution streamlines and automates the entire accounts payable process - from invoice receipt to payment – save costs, get the books closed so you can go home on time (maybe even early), and take advantage of a full, transparent look at your cash flow.

Benefits of Medius Invoice Automation

Get started right away with full visibility of invoices and embedded automation excellence.

- All your invoice data is at your fingertips in one repository - accessible and reportable
- Leverage intelligent invoice data capture capabilities digitizing all invoices regardless of the format
- Take advantage of automatic matching of invoice data against purchase orders, goods receipts, or contracts
- Reap the benefits of Machine Learning (ML) which recognizes patterns and repeated actions, so you don't have to manually correct invoices or key in information over and over again
- Utilize pre-built cloud connectors to your ERP systems

Benefits of Medius Pay

Turn costs into revenue, streamline processes for paying suppliers, and improve security.

- All your payments in a single consolidated process to enable no-touch payments
- Execute payments in the most efficient and cost-effective manner for each supplier
- Prevent errors and reduce the risk of fraud with verified vendor enrollment, duplicate payment alerts, and a support team dedicated to helping you continuously improve your process
- Take the stress out of paying your supplier community by handing off responsibility quickly and efficiently to our team

By initiating AP automation with payment automation, an organization generates cost savings through discounts and rebates. This creates substantial ROI that **can potentially fund future automation investment.**

Level Research, The Impact of Putting Payables First

Why choose Medius

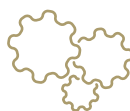

Venture beyond basic automation

Simply automating steps of the process of approving invoices and issuing payments isn't enough anymore. Medius uses forward-thinking and intelligent technology to reimagine everything from how you bring invoices into the business and how they move through your organization, to how your vendors are paid – all to reduce time-consuming and error-prone processes from your approval workflow.

Welcome peace-of-mind into AP

Don't lose any more sleep over how your business handles AP processes. We deliver in-depth controls and full transparency that provide valuable insights into spending patterns, so you no longer need to worry about duplicate or fraudulent invoices and payments. With our solution in hand, you'll drastically reduce the risk of garnering late fees or missing an early payment discount.

Save IT from the burden

Streamlining your AP processes, from invoice receipt through payment, shouldn't be complicated. To prevent any undue burden on your IT team, we've designed a secure solution that is easy to get running, integrated, and adding value quickly. You'll be able to make on-going configurations to meet your growing business needs easily on your own, requiring no added items to IT's to-do list – and new AP innovations and ideas will keep flowing, contributing to your business' bottom line.

This software allows us to be completely remote and still get payments out in a safe secure manner...

The cost is great and we feel we get a great value for the product.
