Practice-centered so you can be patient-focused

MTS builds technology systems that work the way your practice works

Our IT services revolve around your unique needs—your patients, your providers, your business.

Our Practice-Centered Care services are delivered by dedicated IT Care Teams to ensure that providers have a secure, reliable IT infrastructure, optimized clinical and business applications, and full end-user support.

MTS was founded in 2006 with headquarters in Valencia, California. The company supports customers and partners across the United States, and provides cloud agnositic solutions (AWS, Azure, or Private Cloud) in our HITRUST-certified data centers.

Comprehensive IT services for healthcare

There are many IT services companies, and many of them work with healthcare organizations as part of their business. But you know – and we know – that healthcare IT is different. You need an innovative healthcare company that you can trust.

MTS works exclusively in healthcare, from community health centers to ambulatory and specialty clinics to integrated networks. We understand the needs of providers and staff and the critical workflows that IT has to support so they can focus on patient needs.

MTS DOES THE THINGS OTHERS SAY CAN'T BE DONE

Provider organizations and networks can look to MTS for:

- EHR Migration and Data Conversion
- EHR Integration Tools
- Quick and Easy EHR Archive Solution
- EHR Downtime Solution
- End-User Helpdesk and Other IT Services
- Managed EHR Cloud Hosting (HITRUST certified)
- Security and Compliance Tools

IT EXPERTISE THAT IS A PERFECT COMPLEMENT TO YOUR SERVICES

Healthcare-focused organizations, associations, and networks partner with Med Tech Solutions for trusted IT services they can offer their clients and members. Our industry-leading hosting, support, security, and strategy capabilities ideally complement your value-added services. We off customized pricing and contract options to match your business needs, from white labeling to revenue-sharing.

DEDICATED IT CARE TEAMS FOR YOUR PERFECT-FIT SOLUTIONS

Your practice and IT needs are unique. So is our approach. Our expert team of healthcare IT professionals love to create custom solutions for the client. If you have the idea, we can help make it a reality.

MTS is trusted by over 10,000 providers and safeguards the ePHI records of over 18 million patients nationwide.

r2 RISK-BASED 2-YEAR HITRUST® CERTIFIED

The Health Information Trust Alliance (HITRUST) Security Framework has become the information protection framework for the healthcare industry. It is the industry gold standard and the benchmark against which organizations measure themselves when charged with safeguarding PHI. Certified status demonstrates that MTS has met key protection requirements related to how information is accessed and stored in a cloud environment. It also places us in an elite group of organizations worldwide that have earned this certificate.
