Merge Imaging Suite value proposition

Vendor neutrality

Vendor neutrality at all tiers provides risk reduction, agility to embrace new technology and future proofing.

Operational efficiency

Consolidate departmental silos to realize operational efficiency and business continuity along with lifecycle management to manage storage costs.

Comprehensive image management

A platform for all patient content regardless of service line, source or format.

Security and compliance

HIPAA-compliant access to all patient content along with lifecycle management to mange risk.

EHR optimization

Image-enable the EHR to shed light on dark data and eliminate the shadow EHR.

The foundation for enterprise imaging

Provide imaging workflow to any service line while enabling rich collaboration and image sharing.

Resilience

Provide high availability and continued uptime, ensuring no disruption to clinical workflows.

Cloud

Ensure business continuity with a HIPAA-compliant off-premise storage of medical data.
