

Transform your business with CRM, automation, sourcing & analytics on one platform.

Mercury is for recruiters that demand more.

Our staffing and recruiting CRM platform enables medium and large businesses to take advantage of the Microsoft Power Platform’s capabilities to be more effective. You gain access to award-winning technology that centralises your data, improves collaboration, strengthens and automates processes, and provides actionable business insights – all with scalability and accessibility from anywhere.

Applicant Tracking

Our sophisticated applicant tracking software provides your company with the best recruitment platform for finding and filling candidates effectively.

Enhanced Collaboration

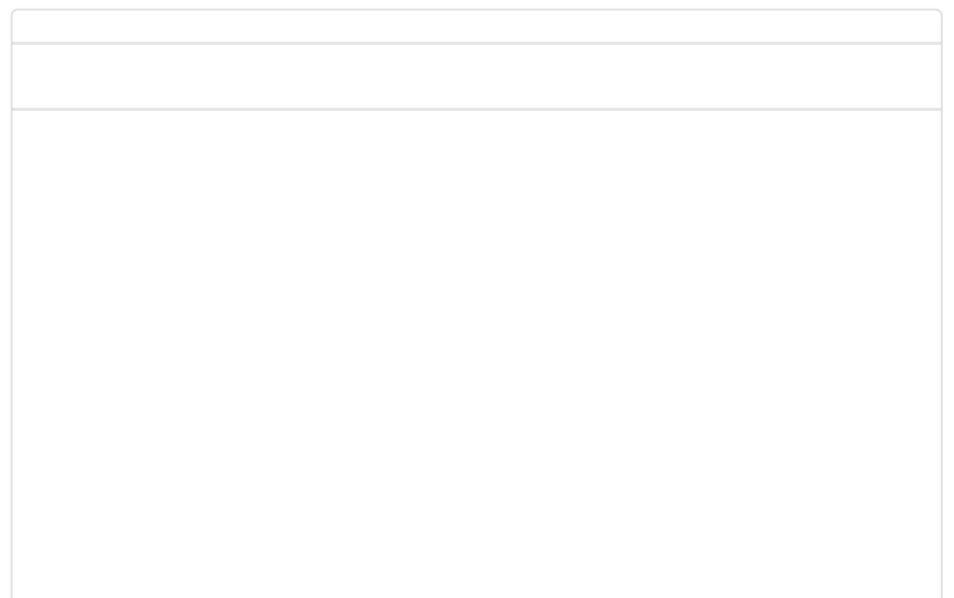

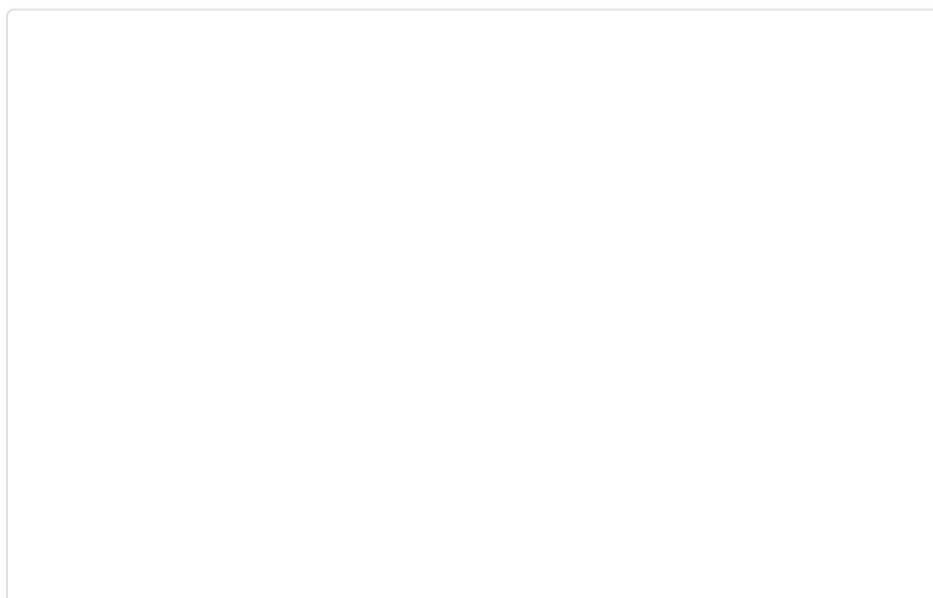

Bring your recruiting procedures, candidates, and contacts into Teams so that you can collaborate, chat, and share.

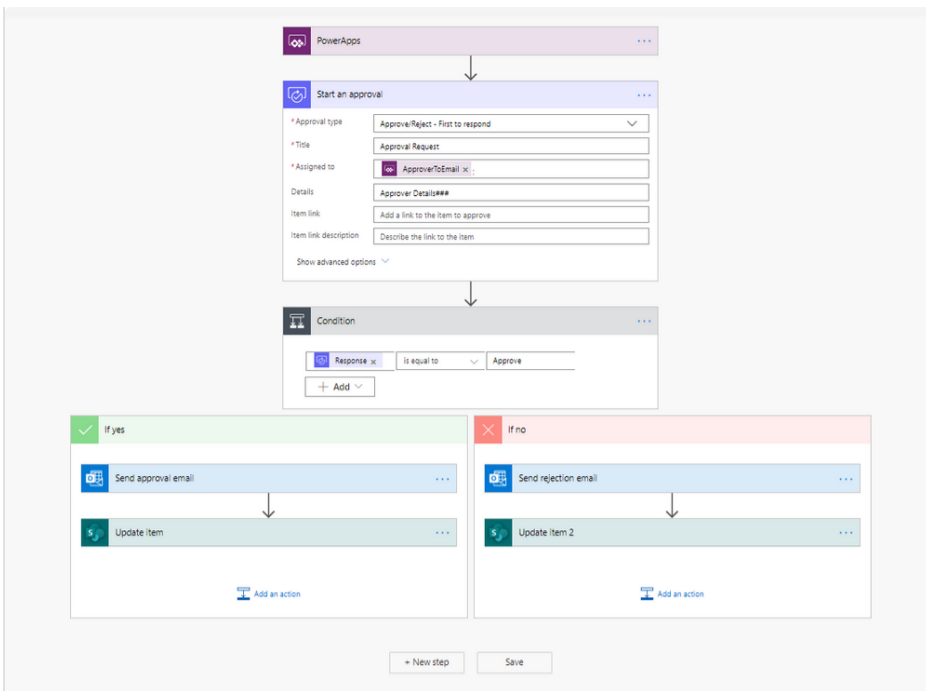

Mercury & LinkedIn

Mercury seamlessly embeds LinkedIn features such as the Recruiter System Connect and Sales Navigator. Automatically send and track InMail's within Mercury, and even see when people have changed roles.

Single, Unified Platform

Mercury integrates seamlessly with Microsoft 365, streamlining recruitment processes. It leverages Office tools to automate tasks, centralise data, enhance collaboration, and optimise candidate management within a single ecosystem.

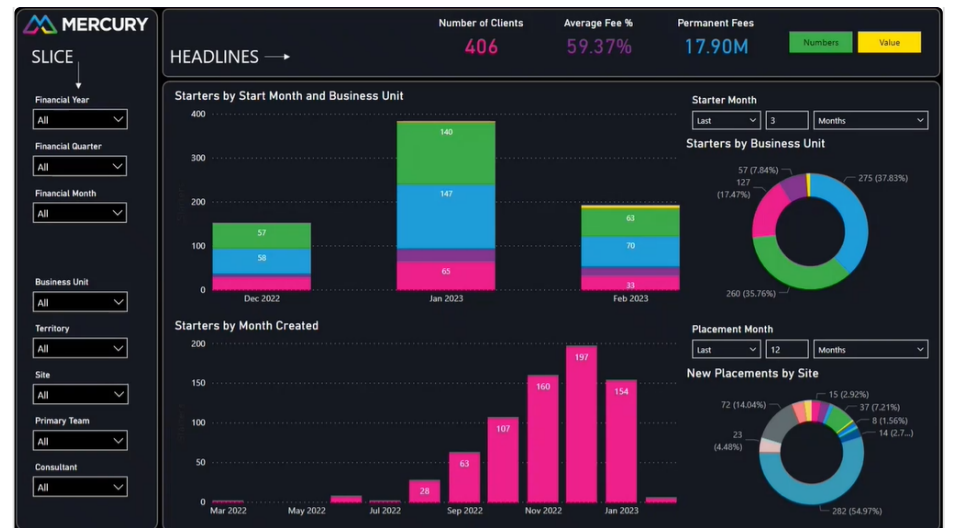

Advanced Automation

Mercury's pre-built, configurable automation leverages the latest technology with real-world workflows to make your recruiters more effective.

Testimonials

"The deployment of Mercury was a gamechanger for our business"

Stephen Redmond, The Green Recruitment Company.

Mercury gives us more control and flexibility to use a system in a way that drives the behaviours we want embedding into our culture.

Jez Clark, CEO, Eden Smith

About Us

Mercury helps medium, large and enterprise recruitment businesses leverage data and technology for operational efficiency and growth. Mercury's team of experts will enable your digital transformation through award-winning innovative technology. Our constantly-connected platform includes Gartner Magic Quadrant applications that give you new powers while maximising your investment in tools you already use, such as MS Office, LinkedIn and Teams - with access from anywhere and with limitless scalability.
