The Leading Knowledge Work Automation Platform

Revolutionize the way knowledge workers automate their processes—from document creation and management to workflow automation, external collaboration, enterprise search, security, compliance, and audit trails.

If it's not REAL Knowledge Work - Automate it!

Eliminate Information Chaos

Organize documents so knowledge workers can easily find and use them in the proper business context.

Improve Process Efficiency and Accuracy

Automate document-centric workflows from creation to collaboration to approval.

Reduce Business Risk

Automate document access rules, securely share and collaborate externally, and create a comprehensive audit trail.

We Help Knowledge Workers To Work Smarter

M-Files features an innovative metadata-driven architecture, embedded workflow engine, and advanced artificial intelligence.

With the M-Files platform, knowledge workers can find information faster, work smarter, and achieve more.

OUR CUSTOMERS SAY

charles river

"Charles River was at a technology crossroads and needed an upgraded document management solution to support their growth trajectory. They were seeking a solution that would drive consistency and efficiency organization-wide and integrate seamlessly with current systems. Most importantly, it had to support faster delivery of client reports with minimal operational impact. M-Files outperformed the competition in CRL's calculations on time savings for priority tasks and overall cost savings"

Jenith Charpentier
Senior Director, Data and Report Delivery Services
Charles River Laboratories

B|T

"It's really reduced the amount of time we've spent—wasted time—trying to locate a document. Just being able to quickly and efficiently find documents has been the number-one impact. M-Files has reduced total document search times by 90 percent."

Alex Siefert
Applications Manager
Bridges Trust

TKE

"M-Files has become a true enterprise-class solution for us. We manage almost one million documents with M-Files. We have more than 500 users across seven departments – and we're growing. We have saved the equivalent of 900 trees and $1.5 million to date."
