mhance Nonprofit Stack

mhance

Empowering Charities with Seamless Digital Transformation
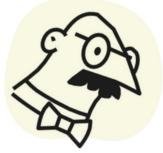

The mhance Nonprofit Stack is a purpose-built solution designed to meet the unique needs of charitable organisations. Developed on Microsoft Dynamics 365 and aligned with the Nonprofit Common Data Model, it offers a robust, open-source framework that integrates effortlessly with the Microsoft Cloud for Nonprofit.
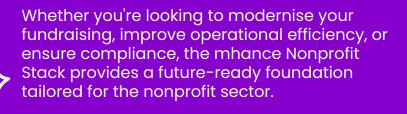

This platform enables nonprofits to streamline operations, enhance donor engagement, and maximise fundraising impact, all while maintaining full control over their data. With a partner-neutral approach, mhance ensures flexibility and independence for every organisation.

Key Features

- **Lifetime Value:** Track and analyse the long-term financial relationships with your supporters.
- **Financial:** Consolidate income streams with accurate coding into Business Central and other financial systems.
- **Income Management:** Integrate seamlessly with payment gateways and donation platforms.
- **Event Management:** Plan and manage major fundraising events with ease.
- **Consent:** Stay compliant with GDPR and other data protection regulations through time-bound stakeholder consent.
- **Tax:** Navigate UK and ROI tax reclaim systems for efficient donation processing.

By leveraging the Microsoft Power Platform, the mhance Nonprofit Stack replaces complex coding with intuitive low-code/no-code tools like Power FX and data flows, empowering your team to innovate without technical barriers.

Whether you're looking to modernise your fundraising, improve operational efficiency, or ensure compliance, the mhance Nonprofit Stack provides a future-ready foundation tailored for the nonprofit sector.
