See what customers are saying:

"The whole solution put together (Logitech devices and Microsoft Teams Rooms) helped us to offer our employees an easy to use and attractive communications experience, delivering added value for of all us, every day".

Adrian Ursu, IT Service Manager GBS

MICROSOFT TEAMS ROOMS

Transform your meeting space into a large conference room with a rich, collaborative Teams experience that's simple to use, deploy, and manage.

Start meetings on time with one-touch join, then instantly project to the display in the room and share to remote participants.

Microsoft Teams Rooms includes the following key components to deliver a great user experience:

- Touchscreen console
- Compute module
- Microsoft Teams Rooms application
- Peripheral devices (camera, microphone, speaker)
- External screens (maximum of two)
- HDMI input

You can select the right system and audio video peripherals from one of our partners: Lenovo, Logitech, Jabra, HP Poly.

Inclusive

Foster inclusive and interactive meetings for everyone, regardless of where they are.

Easy to use for all

Deliver consistent Teams experiences designed to make collaboration easy and hassle-free.

Flexible

Turn any shared space into a Teams room with a wide selection of devices to fit every need.

Secured & managed

Keep devices secured, reliable and up to date with rich management capabilities and powerful analytics.

Microsoft Teams Rooms on Windows and Android

Teams Rooms on Windows utilizes a dedicated Windows PC that remains in the meeting room. Unlike BYOD, a dedicated Windows PC, paired with Teams Rooms-certified audio video components, assures that the deployment meets Microsoft's stringent performance thresholds.

A more recent addition to the Microsoft Teams Rooms ecosystem of offerings is Teams Rooms software running on Android OS collaboration devices.

Turn any room into an easy-to-use meeting space ensuring a better hybrid experience.

With Teams Rooms devices, users can enhance their collaboration with a digital whiteboard, and intelligent people-tracking cameras make sure every local participant can be seen no matter where they are in the room. Any type of space and any type of meeting can be optimized with Teams Rooms devices or Teams Rooms solutions.

Advanced audio and video, and sharing

Select from fully modularized, integrated, or all-in-one form factors across Android or Windows operating systems

Join meetings friction-free to engage in inclusive, collaborative meetings for all participants.

Fully manage and keep devices up to date, and ready to go with Teams Admin Center. With Microsoft Teams Rooms Pro, you can leverage Microsoft's proactive AI-powered managed services.
