Smart Hybrid Work with Teams Rooms

Transform your meeting spaces into real conference rooms with a simple, collaborative Microsoft solution that allows everyone to be seen, heard and fully participate no matter the location.

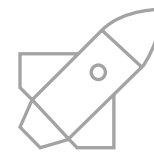

Turn any room into an easy-to-use meeting space

Hybrid Work is on the rise and is here to stay. The workplace is more team based and mobile than ever if we take into consideration that 56% of meetings have at least one remote attendee (according to Microsoft Business Meetings Habits Practices Study, February 2018).

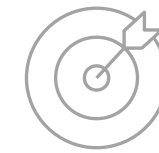

Primary challenges

Seeking to improve internal collaboration, boost productivity and increase connectivity for all remote sites.

Ideal solution

Microsoft Teams Rooms is the collaboration technology of choice for all types of companies, no matter the size. With Teams Rooms organizations can bring the rich functionality of Teams to any meeting space, allowing Teams users to connect inside and outside of your organization.

Desired outcomes

Easily connecting people no matter where they are

Trusted solution and devices, so the data would be safe

Easily managed from one place

Connect your team with Microsoft Teams Rooms

Turn any room into an easy-to-use meeting space. Microsoft Teams Rooms is designed to help companies to make the most of their time by making the experience consistent, easy, and supportive of your return-to-work safety policies.

Inclusive and easy to use

Foster inclusive and interactive meetings for everyone, regardless of where they are.

Deliver consistent Teams experiences designed to make collaboration easy and hassle-free.

Flexible

Turn any shared space into a Teams room with a wide selection of devices to fit every need.

Secured & managed

Keep devices secured, reliable and up to date with rich management capabilities and powerful analytics.

One solution, multiple choice of devices

Microsoft Teams Rooms is perfectly working with devices from Logitech, Lenovo, HP Poly, Jabra.

logitech

Lenovo

Smart Video Conference System for a better collaboration - Logitech

Consist on:

Microsoft Teams Rooms

Logitech TAP – With a spacious 10.1" display, low profile, and motion sensor for always-on readiness, Tap has a sleek and unobtrusive presence in the room.

Logitech MeetUp - Designed for huddle rooms and other smaller spaces, MeetUp packs big features into a compact form factor.
