# We are your cloud experts. Partnering with MDS will realize your AI Powered Security Vision

## About MDS:

We are a focused, diverse team of cloud experts designing and delivering the next generation of cloud solutions. We are committed to delivering outcomes not just software, licenses, and services.

## What we offer

Implementing Microsoft Sentinel effectively and developing tailored use cases are crucial for maximizing its potential and ensuring your organization's security. MDS offers a comprehensive consulting service to guide you through the entire process, from use case development and planning to log collection, integration, implementation, and training.

**Key Distinctives:**

• Sentinel Consulting & Deployment

• Detailed use case descriptions and log source assessment reports

• Experience in Multiple Sentinel Projects across different Industries

• Connector design documentation, architecture, and data source configuration

• Use case implementation, testing, and validation reports

• Comprehensive use case documentation

• Hyper care support Post Deployment

# Why MDS, and Sentinel?

## Simplified procurement process:

Microsoft Marketplace offers a streamlined procurement process that allows customers to purchase and manage their subscriptions in one place. This eliminates the need for customers to navigate multiple vendor websites and portals, saving them time and effort.

## Access to system integrator expertise:

SI's like MDS, can provide customers with expert guidance and support throughout the subscription period. We can help customers choose the right subscription plan, provide technical support, and offer training and education services. This ensures that customers get the most out of their SaaS subscription.

## Commercial Marketplace Benefits

Customer can take advantage of customers' Azure consumption commitment benefit. This benefit makes it possible for customers to purchase qualified offers from the commercial marketplace and receive credit against their Consumption Commitment. This streamlines purchasing and budgeting for customers with existing enterprise agreements (EA) or Microsoft Customer Agreements (MCA).

## Customer Experience

Customer gets better onboarding experience on purchasing software subscription through marketplace, as it can provide integrated solution of product, professional service and managed services. Reducing procurement hassle.

### Microsoft Azure

**Designed to seamlessly integrate with your existing Microsoft ecosystem, Sentinel empowers you to collect, detect, investigate, and respond to security incidents across your entire enterprise.**

**By leveraging the power of Artificial Intelligence (AI) and Microsoft's extensive security expertise, Sentinel provides intelligent security analytics and threat intelligence to stay ahead of emerging threats.**
