

DILMAH'S MJF CHARITABLE FOUNDATION
AND MILLENNIUM IT ESP PRESENT

disABILITY App Powered By HealthVision

An innovative Teletherapy App to support
children with disabilities

**A PLATFORM THAT ENABLES
CHILDREN WITH SPECIAL NEEDS AND THEIR
CARETAKERS TO DIGITALLY CONNECT WITH MJF
CHARITABLE FOUNDATION'S HEALTH AND
EDUCATION SERVICES**

The disABILITY project focuses on emphasizing the ability of people who are considered disabled, seeks to grow awareness of the estimated 40,000 people with Cerebral Palsy in Sri Lanka and 17 million around the world, as well as others with Down Syndrome or other developmental disorders.

Want to help children with special needs get the treatment they deserve?

Here's how our solution can help you!

The platform connects children with special needs and their families to MJF Center's services provided at the National Centre for Children with Cerebral Palsy and other Developmental Disorders (NCCCPDD) as well as via other partners across Sri Lanka.

Such services include:

- Disability Screening
- Developmental Screening
- Child Reference to Pediatrician Diagnosis
- Early Identification and Intervention
- Multidisciplinary Team Support
- Therapeutic, Educational and Rehabilitation Services
 - Mobility Aids Support
- Child Progress Monitoring Follow Ups
- Live video Teletherapy

MillenniumIT ESP's HealthVision solution powers 'disABILITY' - the disability screening and management application of MJF Foundation.

The App is first of its kind globally

Web-enabled, mobile responsive, intuitive platform

Trilingual service: Sinhala, Tamil & English

Invaluable teletherapy services for people with Cerebral Palsy

REIMAGINE. REINVENT.
